Attorney General Healey:

I hope you help the Davis family. So many have turned a blind eye and a deaf ear to the Jason Davis case.

This is a watershed moment in our State history. We need to right this wrong which clearly is one of the worst atrocities in the history of the Massachusetts Department of Mental Health.

Jason Davis is a national legal hero given the substantial contributions he has made to our national constitutional landscape through his precedent setting cases in the mental health arena. He should be treated like the hero he is on his home soil.

Thank you for your consideration of this matter.
