Chris ,
 Clearly these are issues - both mental health and the Davis matter- that are very very important to me. I have been working on improving mental health for years and As soon as you brought the Davis issue to my attention this spring I said I would file an amendment in the budget.
 Clearly this is complicated by the fact there is not a judgment against the Commonwealth- the judgment is against individuals.
 However, of course I will continue to work on this for this budget process - which is ongoing- and in the future.
 If you would like to meet to talk about this please call my office. 617-722-1640.
 Karen
